Hey racers, have you gotten that car out, cleaned out the cobwebs and made sure you have all your gear up to standards? So Cal's first event of the year is March 12th and 13th, and I'm looking forward to seeing a big group out there.

Chuck I enjoyed the race Saturday between you John and myself, it was clean and competitive racing. Looking at your hands your car must have been an arm load in turn 2 and 9 given the amount of hand movement. I also noticed the same Sunday.

Jerry turn 4 always looks inviting as a place to pass but it is a low percentage outcome best to wait till the exit of 5. I am very thankful of your quick reaction at the start of the Sunday race. Staring head on at you was a very uncomfortable moment. Great work. Ian drove very well on Sunday it took be several laps to get around him on Sunday.

Looking at the contact over the weekend it appeared to be the result of close racing and some early season limited seat time. No real harm done and some valuable experienced gained.

I gave my video from Sunday to Sean to review regarding contact in turn 2 and did not get it back before I had to leave for the airport. So there is nothing to post.

I look forward to seeing everyone at Buttonwillow plus hopefully Ron as well.

The forms are available here. [www.nasaproring.com/contingencies](http://www.nasaproring.com/contingencies)

For tires, you should choose the Regional racing open tire form. If you email the completed form to me, I can sign and email it back to you.
