

NASA Dyno This Weekend - Aug 27-28

Posted by ChuckS - 23 Aug 2016 20:44

Kevin, the owner of MCE Racing that does the NASA Portable Dyno that comes to some of our races will be in El Cajon at the Pep Boys from 10-4 Saturday and Sunday doing Dyno pulls. He has invited us to come on down. He can do cheap simple HP checks to full on Compliance pulls.

There will be two Dynos at Nationals. This one and the one at Tom's shop at BW. So, we have a 50/50 shot that this will be the actual one we will run on.

I am going to do this as a simple check is not very expensive. If anyone else would like to, you are welcome. He doesn't expect to be heavily booked.

You can call MCE for details and directions at 530-934-3237.

Chuck
